Dear Doctor Lederberg:

At the San Francisco meeting of the American Psychiatric Association you gave the Meyer Lecture "From Prometheus to Frankenstein." If you have an extra copy of that paper, I would appreciate receiving it.

Best regards to you and your family.

Very truly yours,

Beverly Sutton

Dear Beverly -

I never published that paper as given. I was the coldest person in the room - and was still at white hot over Cambridge. However, enclosed are a couple of other related items. If there is a particular subject on your mind, I may have commented on it elsewhere, my column for example.

Yours, Jack.
